

Inline mixed flow fans with EC motors **Primo EC**

APPLICATION

Inline fans for supply and exhaust ventilation of various commercial and industrial premises requiring powerful air flow. The fans are compatible with Ø 355 and 400 mm air ducts. Combines wide capabilities and high performance features of axial and centrifugal fans, providing powerful air flow.

AREAS OF APPLICATION

Best Solution for Ventilation of hotel bathrooms / green house with temperature sensor and other humid premises as well for ventilation of residential premises, flats, cottages, offices, shops, cafes, health care and child care facilities etc.

DESIGN

- The fan casing is made of polymer and reinforced with a metal housing. Due to the conically shaped polymer impeller with specially profiled blades, the air stream circular velocity increases, which results in higher air flow and pressure, as compared to characteristics of standard axial fans.
- The specially designed diffuser, impeller and airflow rectifier at the fan outlet provide smooth air flow distribution and enable the best combination of high capacity, powerful pressure and low noise.
- The fan casing is equipped with an airtight terminal box for connection to power mains.

Overall Dimensions [mm]

Model	Ø D	Ø D1	H	H1	L	W
Primo EC 355	355	406	408	439	372	566
Primo EC 400	400	451	453	484	415	623

MOTOR

- Equipped with energy efficient EC motors.
- 220–240 V single phase at 50 Hz.
- Equipped with ball bearings for longer service life (up to 40,000 hours).
- All motors have manual reset thermal overload protection.

SPEED CONTROL

- The fan speed is regulated by a smooth 0-10 V controller.

MOUNTING

- The fans can be mounted at any place and at any angle within the ductwork system. Several fans may be installed in one system in parallel to attain higher air capacity or in series to increase operating pressure in the system. The fan casing is equipped with fixing brackets for suspended mounting.
- The fans can be mounted using a **UM Primo** bracket of the appropriate size (ordered separately).

SPECIFICATIONS

Parameters	Primo EC 355	Primo EC 355 max	Primo EC 400
